Profile

I am a beginner QA engineer with a great desire to work in the field of software products quality assurance and quality control, I have 5 months semi-commercial experience as a freelancer in the small team: 1 senior android developer and few interns.

I want to apply my knowledge for the benefit of the company.

Education

Manual QA courses, Hillel school

Oct 2022 – Febr 2023

I had finished QA manual course in Hillel school that had been lasting for four month, had been attending additional various seminars and webinars provided by the school.

Also I had been studying QA manual course in QATestLab school but didn't manage to get a graduation certificate in relation to the situation in the country.

Freelance

Manual QA, Freelance

Sept 2022 – Dec 2022

I have volunteered for a developer who mentors future software engineers. I was involved in testing applications that were developed by interns. I wrote test documentation, kept track of bugs in Trello, was engaged in manual testing of both the user interface and functionality. I also was testing the correctness of the client-server interaction. We had been using agile methodology in our work.

Certificates

Manual QA, Hillel IT school

Febr 2023
